

# AETERNA

In the tapestry of time, Rome, the eternal city, is a beacon of history and timeless beauty, often expressed through the local marble, Travertine. The classic of perfect proportions, tones, and textures transcends time and is reproduced in a very pure version, based on curation by the discerning eye of design. Aeterna is the contemporary version of noble Travertine slabs, which are no longer available in nature, the technology and design materialize and transform into raw materials for architecture, interiors and furniture.
