RECYCLED GLASS

Over the time we have optimized the use of energy resources for the recycling of raw materials.

A choice that starts from the individual, oriented to the society, a gesture of today aimed at the future, the creation and regeneration of a virtuous circle.

Because it is from the smallest things, like a grain of sand, that the greatest things arise.

ASTONISHED

Be the True...

Thanks to the versatility of Recycled Glass combined to a wide range of shapes and graphics to choose from, the Astonished series allows You to create your own personalized mosaic.

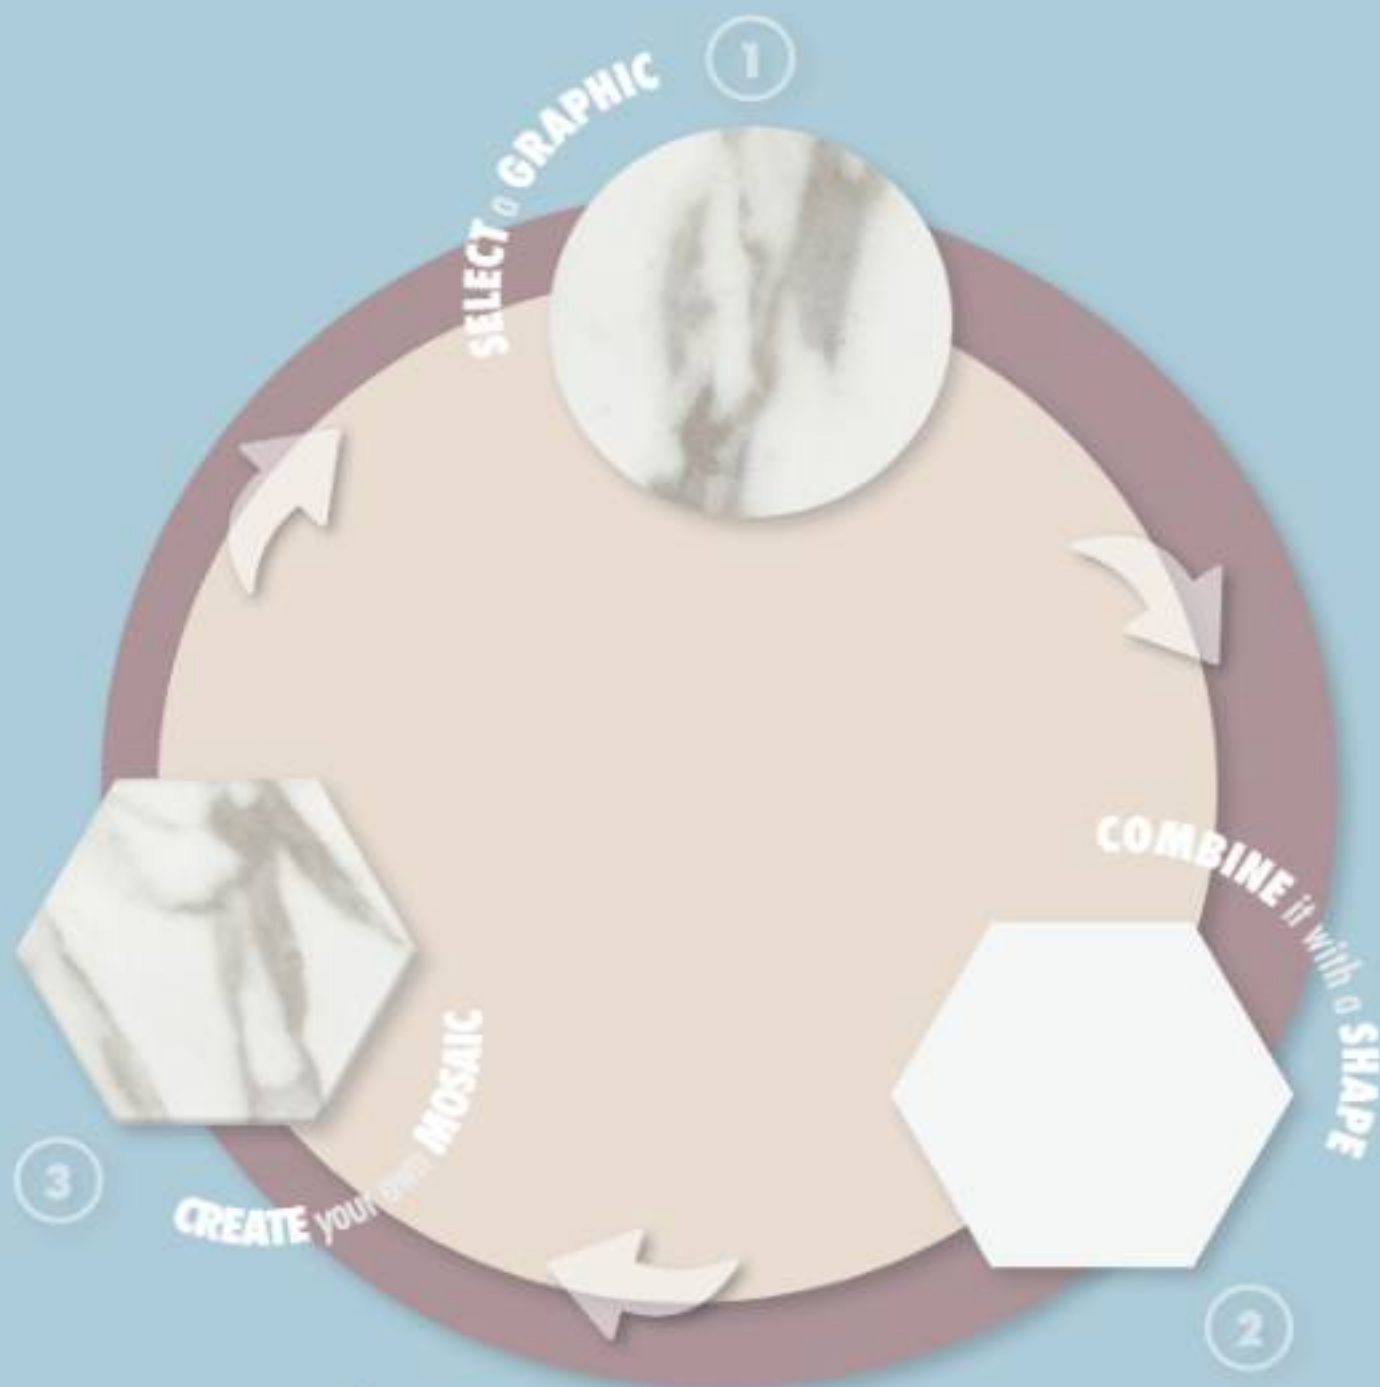

Give life every time to new solutions capables of adapting to your needs, let your imagination run free and design the mosaic You want with us.

Choose from one of the 18 available graphics and have fun combining them with one of the 10 shapes currently present within the series, to create up to 180 different possible solutions.

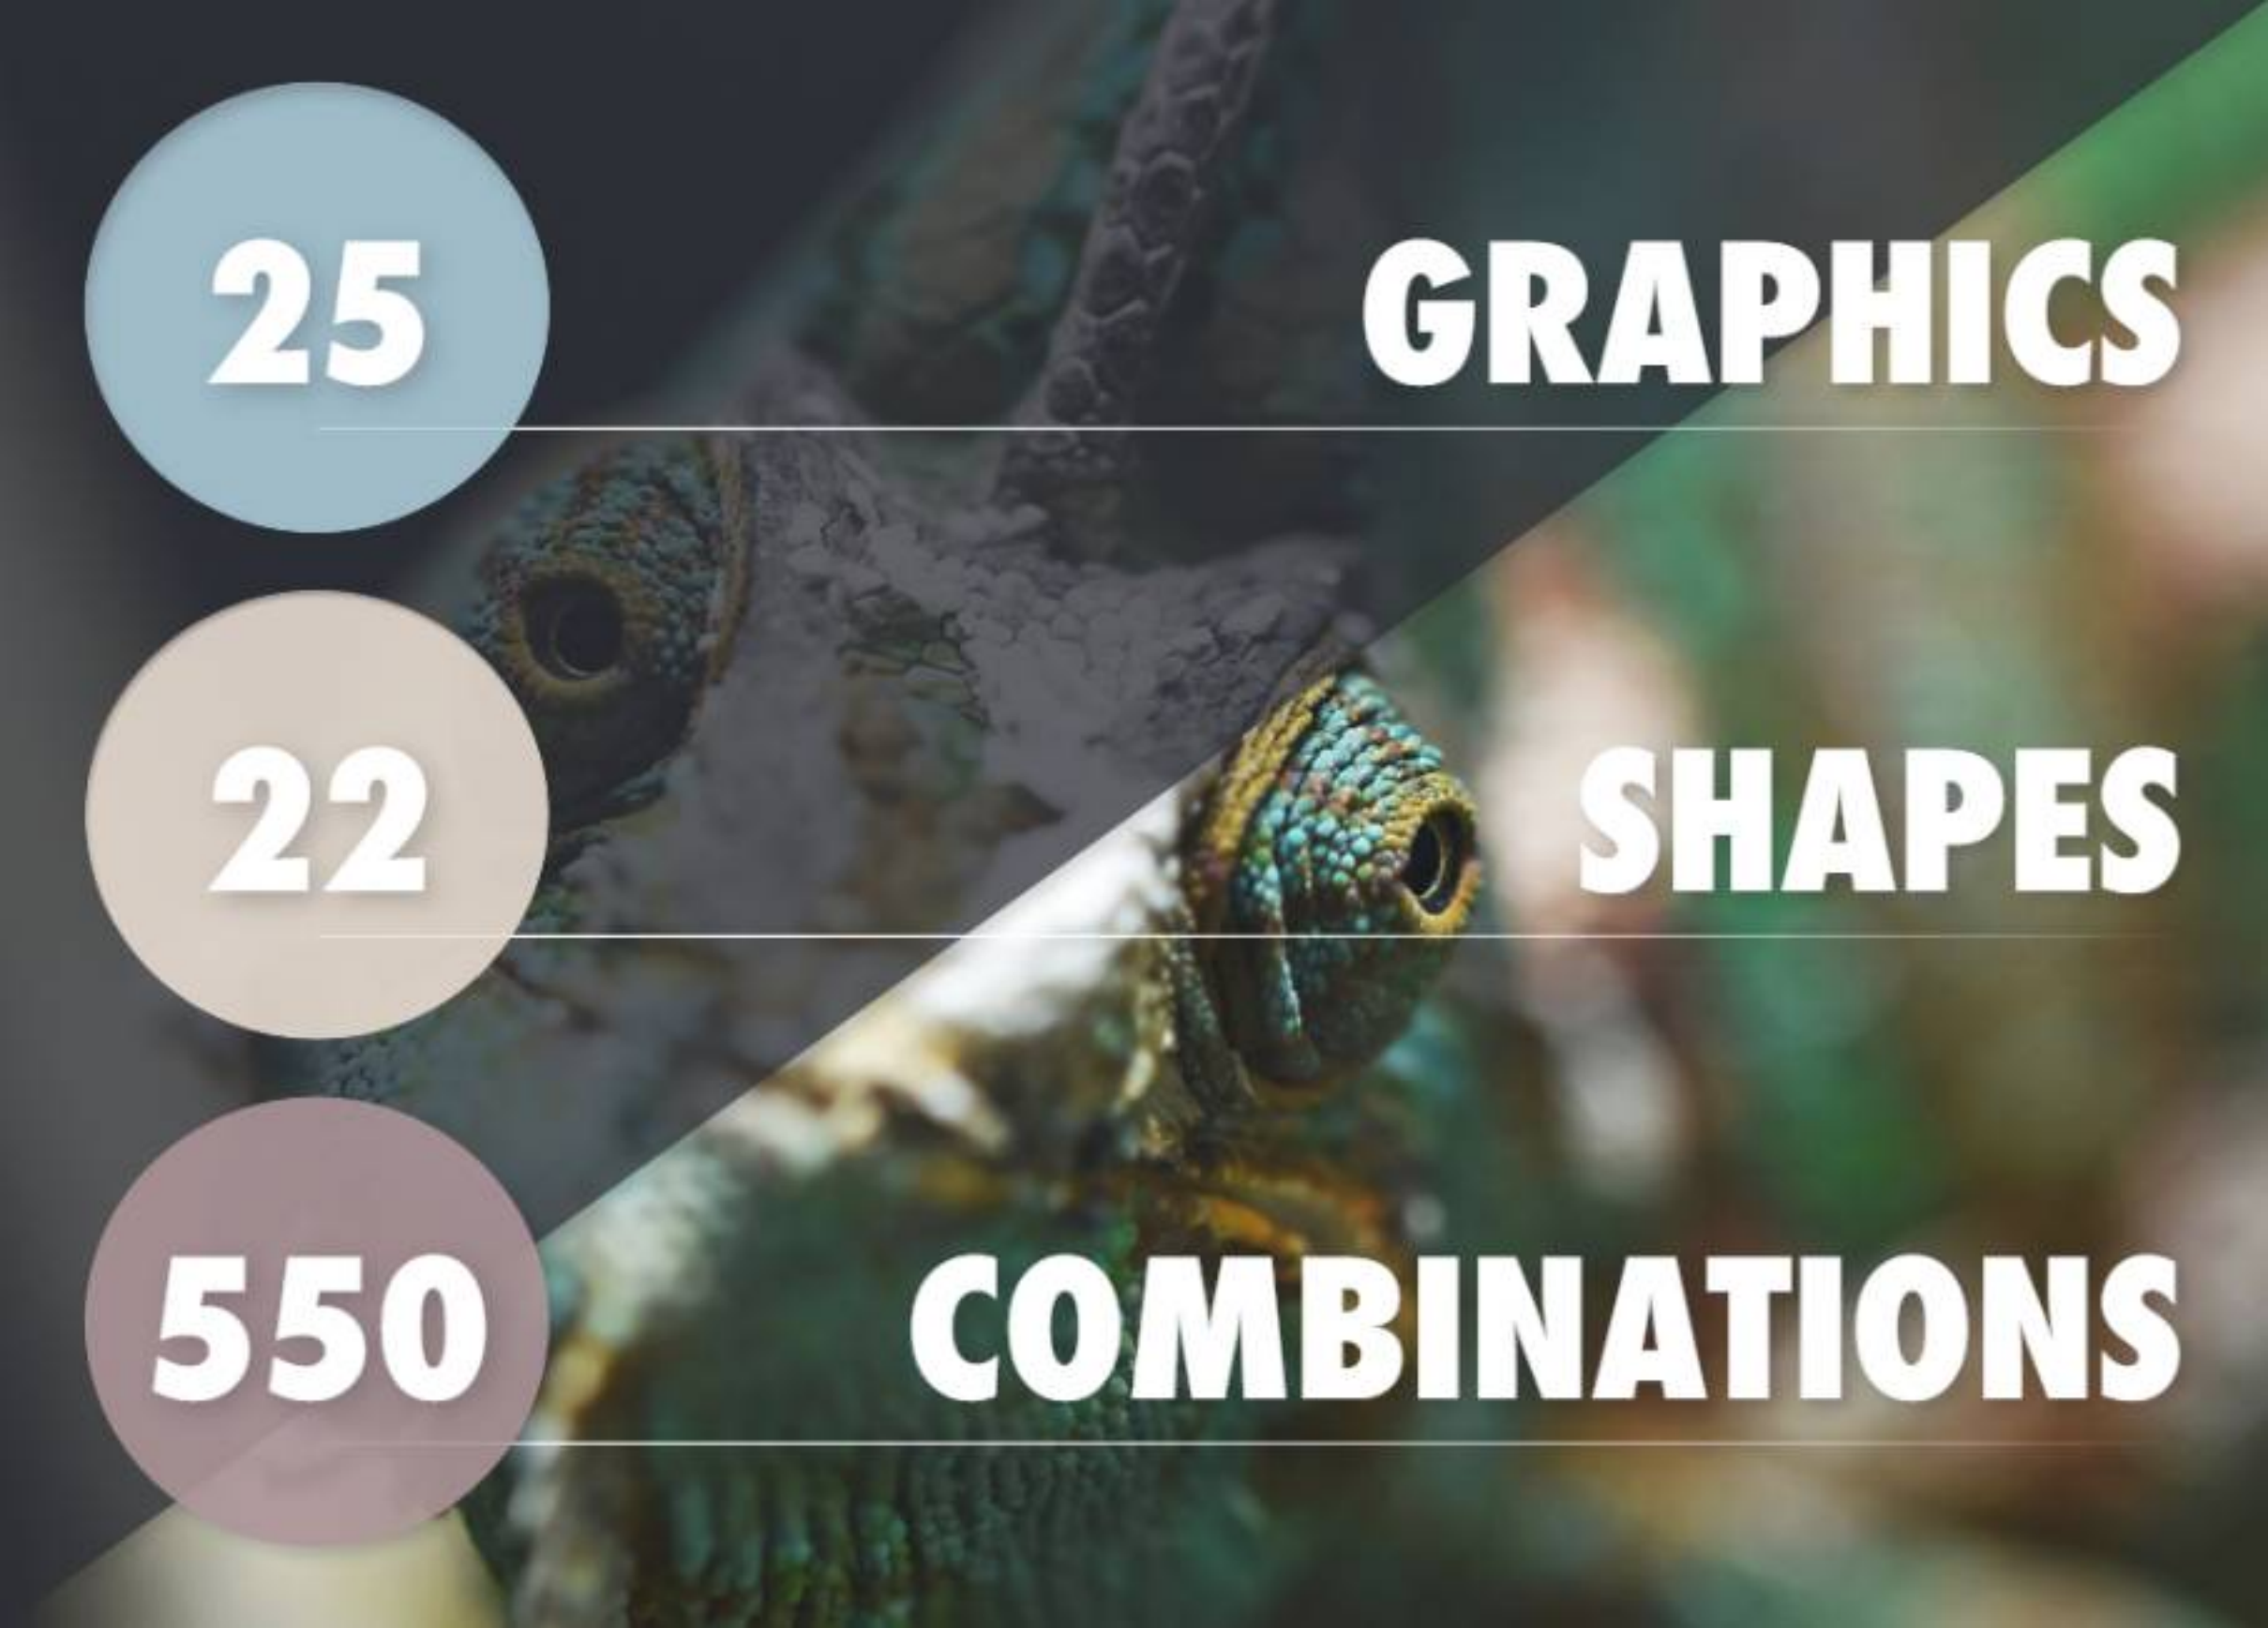

The continuous search for new graphics and the introduction of new shapes will guarantee You an increasingly wider choice in the future.

how the **Series Works**

The background of the entire image is a photograph of a colorful lizard, possibly a chameleon, perched on a tree branch. The image is split diagonally from the bottom-left to the top-right. The upper-left portion is dark and out of focus, while the lower-right portion is in sharp focus, showing the intricate details of the lizard's scales and its head. Three semi-transparent circles are overlaid on the left side of the image, each containing a number. To the right of each circle, the corresponding number is repeated in large, bold, white capital letters.

SUGGESTIONS for the
INSTALLATION

A wall of blue sandstone penny round tiles, each 20 mm in diameter. The tiles are arranged in a staggered pattern, creating a textured, mosaic-like effect. In the foreground, a white ceramic vase holds a bouquet of white daisies with green foliage. The vase sits on a light-colored surface, and its reflection is visible below it. The overall scene is a product showcase for the tiles.

IMPORTANT DETAILS...

**the Recycled Glass mosaic
do Not Require
any Sealing**

*a specific Glass Blade made of
fine and uniform Diamond grain
is required for Cutting*

**use plenty of Water during
Cutting to cool down the
glass and Avoid Chipping**

suitable for Every Wall Installation

**Soft Shoes Floor installation
is allowed (No Commercial)**

...FOR THE INSTALLATION

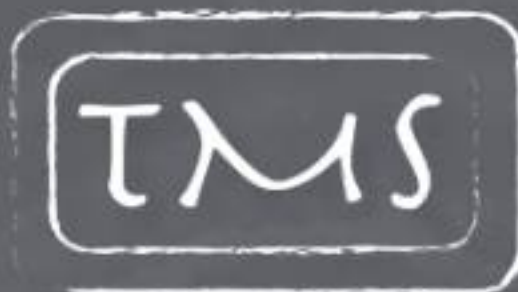

RECYCLED GLASS

The creation of mosaics in recycled glass allows us to keep the quality of the product unchanged over time, while also giving the opportunity of creating a hard-sought visual balance of the installation, based on accords and contrasts of the colors. Furthermore, the recyclability of the raw material contributes to the conservation of the natural environments which is the sole inspiration of the series, while allowing to enjoy wonderful sights without creating a scarcity of the rare stones.
