

azuma™

the zen and the art of concrete

Azuma è la materializzazione di una nuova filosofia di design che si ispira al modo del tutto particolare di concepire i luoghi dell'abitare, e le stessa idea di ospitalità, in Giappone.

A partire dalla suggestione materica, Azuma rimanda all'uso che alcuni correnti architettoniche del paese hanno fatto del cemento per proporre soluzioni talmente innovative e al tempo stesso pienamente calate in una tradizione millenaria.

Tutto ciò si legge in un prodotto ceramico che rappresenta la sintesi armonica tra rigore industriale e cura del dettaglio artigianale, compattezza e leggerezza, ricerca della funzionalità e perfezione estetica. Essenzialità e Bellezza.

5 colori, svariati formati e superfici e una gamma di decori ricavati da alcuni archetipi della architettura giapponese.

Azuma mette al centro il rapporto tra uomo e spazio (abitare) e trova in una elegante spiritualità progettuale la chiave per soddisfarlo pienamente.

Azuma is the embodiment of a new design philosophy inspired by Japan and its unique concept of space and residential design.

Based on the complex material character of concrete, Azuma offers solutions that are radically innovative while also being steeped in traditions stretching back thousands of years.

All this is expressed in a ceramic product that represents a harmonious synthesis of industrial production and custom-made care, solidity and lightness, carefully researched functionality and aesthetic inspiration.

Gracefully minimalist 5 colours, various formats and surfaces, and a range of decorations taken from archetypal Japanese architecture.

Thanks to its vision of elegant compositional spirituality as the key to true satisfaction, Azuma puts our relationship with the space around us at the centre of everything.
