MYKONOS

CERAMICA COLLECTION

Handmade tiles pursue a natural and simple temperament, returning to nature and feeling unrestrained. Gorgeous yet solemn, noble yet elegant, it is the first choice product for designers who pursue individual design styles.

Handmade tiles are unique and original. They can be used as background walls, aisles, dining rooms, living rooms, kitchens, bathrooms, etc. Handmade tiles with different characteristics reflect the unique life taste of the owner of the room.

*Tiles may vary in sizing, weight, colour, pattern, veining, texture, durability, density, surface and finish from batch to batch. Slip ratings serve as an indication and may vary for each batch of tiles. It is recommended that a new test be performed for each batch of tiles if a slip rating certificate is required. The product images shown are for illustration purposes only and are not an exact representation of the product.

Handmade tiles have obvious advantages in expressing design emotions, because such tiles themselves can convey an emotion.

The colors and patterns of handmade tiles are full of personality. Their beautiful imperfections, rough edges, natural kiln discoloration as well as the irregularities reflect the concept of humanization. Its changes in color make artistic expression stronger, making home decoration more tasteful and lively.
