Act in accordance with your nature. Free.dom brings, in its essence, boldness and encouragement of freedom. Freedom to be and to feel. Free.dom to create and recreate. Abundant in formats, in characteristic textures and in harmonic tones, the collection awakens spontaneous creativity, to the emotion of the compositions and to personal expression. Although it presents a set of pieces predominantly designed for outdoor spaces, Free.dom expands the possibilities of use and gives freedom for indoor applications.

Actuar de acuerdo con su naturaleza. Free.dom incorpora en su esencia la osadía y el impulso hacia la libertad. Libertad para ser y sentir. Free.dom para crear y recrear. Abundante en sus formatos, texturas características y tonalidades armónicas, la colección despierta la creatividad espontánea, la emoción de las composiciones y la manifestación personal. Aunque contiene un conjunto de piezas pensadas principalmente para espacios externos, Free.dom amplía sus posibilidades de uso y otorga libertad para sus aplicaciones en ambientes internos.

FREE.DOM

Free.dom Ash Track EXT

Its soft and velvety touch, its minimalist esthetic and its fragmented surface - sometimes lighter, sometimes darker - legitimately recall the natural rusticity of Limestone in the most distinct formats. In its entirety, the highlight is Tact's inventive and revolutionary technology which, despite its smooth finish, is free to use in and out. Free.dom is like this: freedom of possibilities, freedom of choices. It is an incentive to allow yourself and to go as far as your imagination can take you.

Su toque suave y aterciopelado, su estética minimalista y su superficie fragmentada - a veces más clara, a veces más oscura - evoca con legitimidad a la rusticidad natural del Limestone en sus más variados formatos. Destaca por completo la tecnología inventiva y revolucionaria de Tact que, a pesar de su acabado suave, da la libertad para uso en ambientes internos y externos. Free.dom es así: libertad en las posibilidades, libertad en las elecciones. Es un incentivo para permitirse ir hasta donde la imaginación quiera.

LOMBARDA VIVA ARGENTO

When producing Pietra Lombarda, nature arranged big pebbles in a tone-on-tone composition. Design recomposed the tones and re-edited Pietra Lombarda. Lombarda Viva updates the chromatic color chart of Lombard architecture that marks the landscape of Milan. More expressive and with vivacity as a mood, the new proposal brings in and out solutions for all projects.

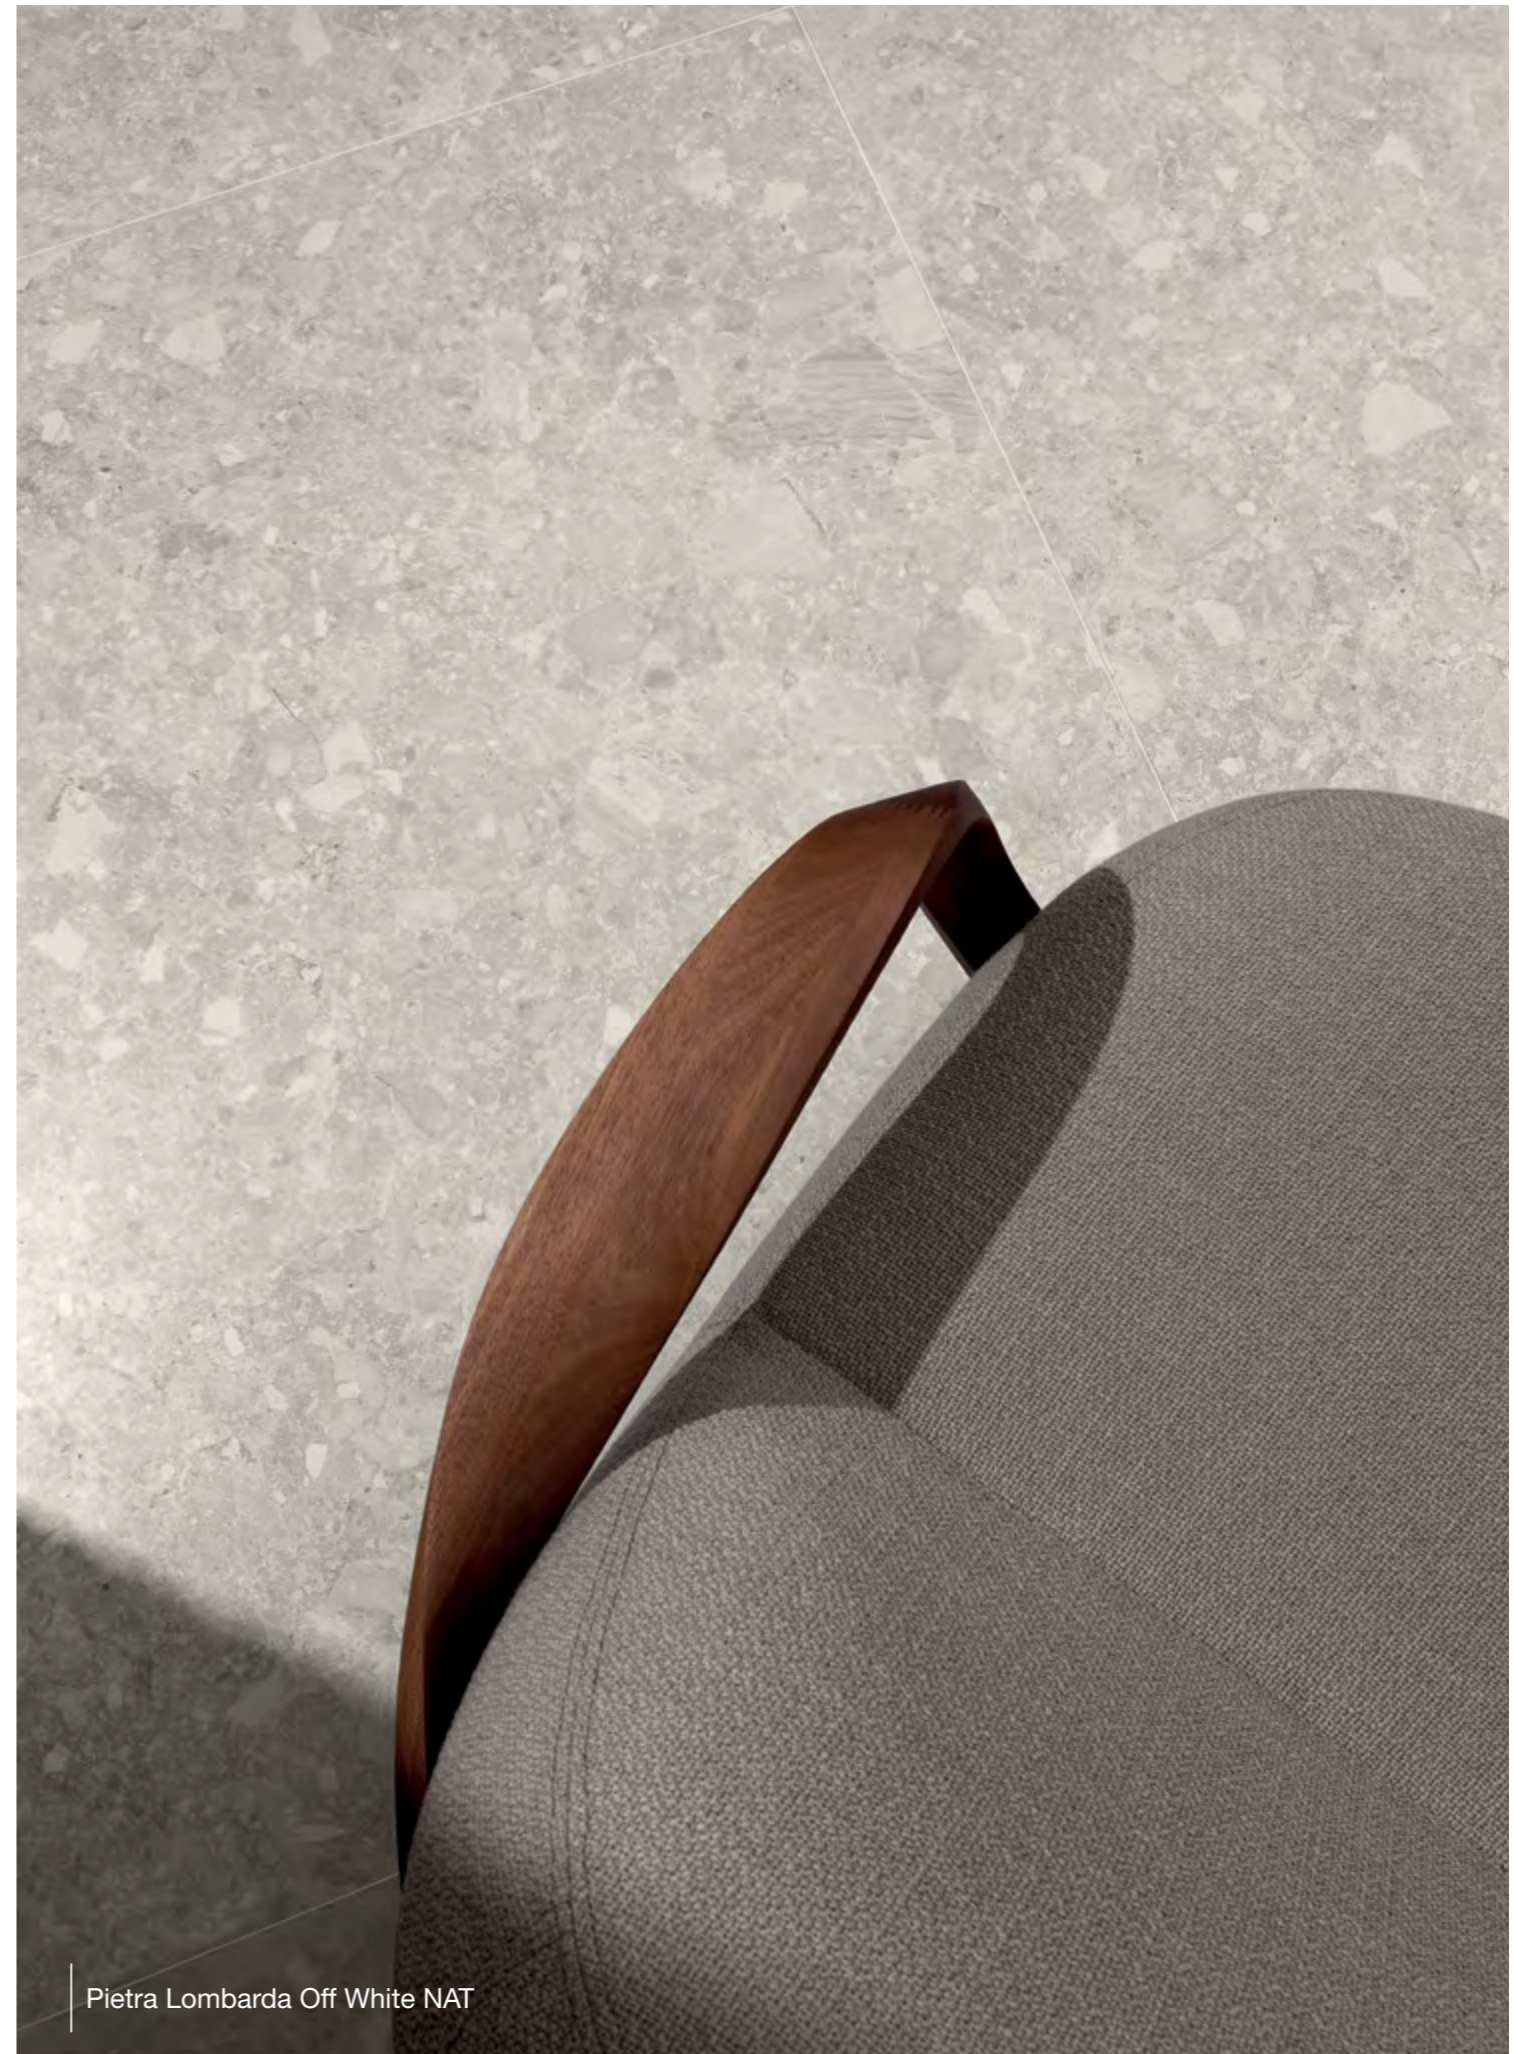

La naturaleza compuso grandes guijarros en tono sobre tono al crear la Pietra Lombarda. El diseño recompuso los tonos y reedita la Pietra Lombarda. Lombarda Viva actualiza la cartilla cromática de la roca de la arquitectura lombarda que marca el paisaje de Milano. Más expresiva y con la vivacidad como mood, la nueva propuesta trae soluciones in and out para todos los proyectos.

MS. BARCELONA

CRISTAL

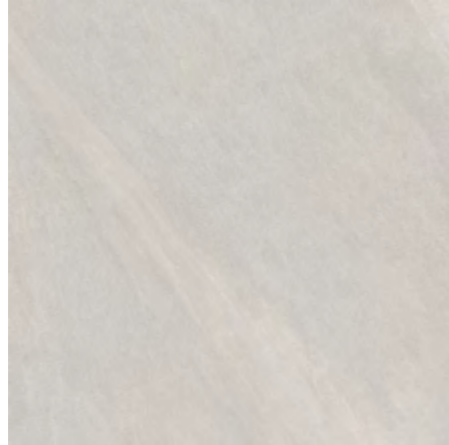

ANTRACITA

Mies Van der Rohe, in addition to being one of the main names of architecture in the 20th century, if translating his minimalist austerity in a bold, sophisticated and very innovative way, also left some maxims like "Less is More". It may seem simplistic, but it is actually much sophisticated and elaborated. It is the synthesis of simplicity from very complex compositions. Ms. Barcelona was conceived with the ambition of construing the same thought in a proposal of design that, from a fusion of materials like limestones, cements, and basalts, creates a striking finish, yet maintains its minimalism. A contemporary vision of the layers of time: The stone, the concrete, the architecture, the history, the technology, and the design - Ms. Barcelona.

Mies van der Rohe, además de ser uno de los principales nombres de la arquitectura del siglo XX al traducir de forma osada, sofisticada y muy innovadora su austeridad minimalista, también dejó algunas máximas como el "Less is More". Lo "menos es más" puede parecer simplista, pero es en verdad bastante sofisticado y elaborado, es la síntesis de la simplicidad a partir de composiciones bastante complejas. Ms Barcelona fue idealizada con la ambición de traducir el mismo pensamiento en una propuesta de diseño que, a partir de una fusión de materiales como limestones, calizas, cementos y basaltinas, crea una superficie impactante, sin embargo, minimalista. Una visión contemporánea de las capas del tiempo: la piedra, el concreto, la arquitectura, la historia, la tecnología y el diseño - Ms Barcelona.

BLEU DE SAVOIE

One of the rarest stones in the world, from a cave in Aime in Savoie, the French Alps region, Bleu de Savoie mesmerizes by the unique variation of bluish-gray tones. The light veins, almost white, flow smoothly on the surface and guarantee the contemporary touch of the material. The reproduction of this material in porcelain tiles has the ambition to provide its use without extinguishing natural sources, which must be kept for moments that are rare as well.

Una de las piedras más raras del mundo, procedente de un pozo en Aime na Savoie, región de los Alpes franceses, encanta por la particular variación de tonos de gris azulado. Las vetas claras, casi blancas, caminan suavemente sobre la superficie y garantizan el toque contemporáneo del material. La reproducción de este material en porcelanato tiene la ambición de dar uso sin extinguir fuentes naturales, que deben ser preservadas para momentos que también son raros.
