## MONOLITHOS COLLECTION

Newest addition to the world of Nex-Gen tiles - Magic Stone. As the name suggests, this unique tile is a perfect blend of various stones, with French stone predominating. Among other things, it embodies the salient features of Ardesia and the famous Italian marble found in caves in Tuscany. This fusion of different stones allows for tiles that not only exude elegance and sophistication, but also provide a myriad of pleasing functions.

Magic Stone is available in five stunning colours, carefully chosen to complement any interior or exterior design scheme. From the classic beauty of white marble to the warm tones of earthy browns, the collection offers a versatile palette to suit different tastes and styles. Each tile has ten different faces, ensuring a visually appealing arrangement that adds depth and texture to any space. Whether for residential projects or commercial buildings, Magic Stone is the ideal choice for those looking for a visually appealing tile solution.

One of the standout features of the magic stone is its Smooth Grip/non-slip surface. This makes it ideal for areas prone to moisture or where safety is a priority, such as bathrooms, swimming pools and outside walkways. A combination of French stone, Ardesia and Italian marble creates a tile that not only looks striking, but also provides enhanced traction, reducing the risk of slips and falls, even in wet conditions. This property makes Magic Stone an excellent choice for residential and commercial spaces where aesthetic appeal and safety are equally important considerations.

Magic Stone is a truly remarkable tile that perfectly combines the beauty of French stone, the charm of Ardesia and the splendor of Italian marble. Available in five stunning colors, ten unique face shapes and a non-slip surface, this tile is as stylish as it is functional. Whether you are looking to enhance your living space or create an impressive commercial setting, Magic Stone is the perfect choice to add elegance and sophistication to any setting.
