FAE Overcome

WELCOME TO TILE SPACE

Your World of Inspiration.

We've been helping Kiwis make beautiful rooms with tiles for over 30 years now, so it stands to reason we know where in the world to find the best.

We have exclusive partnerships with some of the finest tile manufacturers in Europe, the UAE, Asia and South America. A visit to any one of our showrooms could see you take a world tour of tiles in 10 minutes flat.

Whether you're looking for inspiration for the family home or the hottest new hotels, you can guarantee we've got this!

■ TRENDS

ON TREND 3D TEXTURE

For a neutral feature wall, choosing tiles with a 3D texture is a great way to get a stunning look while keeping within a natural colour palette. Especially useful if you have strong elements elsewhere in the space to co-ordinate with or if you want a clean look with a bit of pizzazz.

Get the look: Icone Range, Lumina, Zante Nieve, Gubi

VVS084 Zante Nieve (pictured left)
ITA284 Icone Noir Ligne (pictured right)

■ TRENDS

ON TREND ZOOM IN

Small format tiles are under the microscope. With the Zoom collection from Lea Ceramiche, designer Fabio Novembre took this idea and examined it in the context of large format concrete flooring, showing the look 'zoomed in' at the molecular level, creating organic shapes with bold contrasts. In the more traditional sense, Micro mosaics take small format mosaics and tiles and give them a clean, modern edge.

Get the look: Zoom, Micro mosaics.

LEA 122 Zoom Foam Shade on floor & **LEA 120** Concrete Dark Matt on wall (pictured right)

FROM THE DESIGNER

"I am a dreamer, but in life I have been Concrete only for Lea Ceramiche, in this sense, the inspiration for Zoom comes from chemistry, an exact science that allows us to understand the most intimate data of the elements."

Fabio Novembre

CONCRETO

LEA Ceramiche

Concreto takes the art form of replicating a surface as only the Italians can, with minute attention to detail and the flair to pull off a beautiful design that will enhance any home.

Product Details

FOLLOW THE LIGHT

Slimtech Delight is the new marble-effect collection from Lea Ceramiche, combining striking aesthetic variations, new tactile sensations and large formats.

INVISIBLE LIGHT

Part of the Delight collection, Invisible Light is a replica of natural marble in a stunning 1.2m by 2.6m size and in a lightweight 6mm thick tile.

Satin is a soft, silky finish with a surface that absorbs the light to give back an irresistible, exquisite gleam.

Product Details

Produced with 24 different faces with little repeat.

Grade 4 – Suitable for floor or wall in areas that are subject to considerable traffic, house entrances & light commercial spaces, such as restaurants.

V3 – Moderate variation – the amount of colours on each piece vary greatly, but colours do not differ greatly between pieces.

Slimtech product: Superior quality thin ceramic slabs, a light, resistant and versatile product.

600 x 1200mm size in Matt and Polished finish arriving mid March.
