

Verre

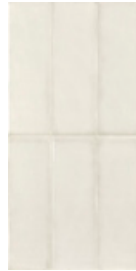

A transparência revela o novo vintage. O vidro industrial do pós-guerra traduzido em duas versões, uma com relevo mais sutil e outra que reproduz o padrão canelado. Pequenas peças retangulares compostas em peças no formato 30x60, para paredes reinterpretam as esquadrias francesas da época e possibilitam um toque retrô nos ambientes contemporâneos. Verre. Porque as paredes precisam se manifestar.
